Dear Sir:

Petitioner, The Procter & Gamble Company, is the owner of the entire right, title and interest in the above-identified application (the assignment recorded on September 3, 2002, at reel 013251, frame 0464). Petitioner hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the above-identified application, which would extend beyond the expiration date of the full statutory term defined in 35 U.S.C. §154 to §156 and §173 as shortened by any terminal disclaimer filed prior to the grant of any patent granted on pending Application Number 09/909,233, filed on July 19, 2001 (the assignment recorded on September 28, 2001 at reel 012217, frame 0424), pending Application Number 09/909,288, filed on July 19, 2001 (the assignment recorded on March 5, 2002 at reel 012670, frame 0063), pending Application Number 10/109,344 filed on March 28, 2002 (the assignment recorded on September 5, 2003 at reel 013946, frame 0099), pending Application Number 10/197,029, filed on July 17, 2002 (the assignment recorded on January 21, 2003 at reel 013376, frame 0540), and pending Application Number 10/253,113, filed September 24, 2002 (the assignment recorded on July 18, 2003 at reel 013811 on frame 0538). The evidentiary documents for the assignments have been reviewed, and petitioner certifies that to the best of petitioner's knowledge and belief, title is in the assignee to take this action. Petitioner hereby agrees that any patent so granted on the above-identified application shall be enforceable only for and during such period that it and any patent granted on the above-identified pending applications are commonly owned. This agreement runs with any patent granted on the above-identified application and is binding upon the grantee, its successors or assigns.

In making the above disclaimer, petitioner does not disclaim the terminal part of any patent granted on the above-identified application that would extend to the expiration date of the

full statutory term as defined in 35 U.S.C. §154 to §156 and §173 of any patent granted on the second application, as shortened by any terminal disclaimer filed prior to the patent grant, in the event that any such granted patent: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. §1.321, has all claims cancelled by a reexamination certificate, is reissued, or is in any manner terminated prior to the expiration of its full statutory term as shortened by any terminal disclaimer filed prior to its grant.

The undersigned is empowered to act on behalf of the assignee.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Respectfully submitted,
